SYSTEM DYNAMICS COLLOQUIUM *FREE REGISTRATION!*

This year's online Colloquium will be held on the 19th of July and it will revolve around reflecting together. It is online and free of charge so do not miss a chance to join! Register for the Colloquium:

www.systemdynamics.org/system-dynamics-colloquium

HELP US OUT, FILL OUT A SURVEY!

We would like to invite you to participate in a survey developed by the Student Chapter.

The goal of this survey is to evaluate the skills of people in the system dynamics field. Your answers will be critical to assess the needs of system dynamicists in terms of new learning materials.

TO PARTICIPATE:

Follow the survey [link](#)

JOIN A PEER MENTORING GROUP

A system dynamics peer mentoring group is a small group of people who meet online to discuss system dynamics related topics and to help each other with their system dynamics related work. People having different levels of system dynamics knowledge are welcome.

Would you like to connect with other system dynamicists? Send us an email:

sdsstudent.chaptermail@gmail.com

MEMBERS' STORIES

Join us in congratulating our Student Chapter member NiNa Dhirasasna for publishing two papers:

A systems approach to examining the drivers and barriers of renewable energy technology adoption in the hotel sector in Queensland, Australia

A multi-methodology approach to creating a causal loop diagram

And for submitting her PhD thesis "A study of renewable energy technology adoption dynamics in the hotel sector" to Griffith University, Australia.
